PROJECTS

Sort-visualizer (Front End Project)

Technology Used: HTML, CSS, JavaScript

Made this Project by use of HTML, CSS, JavaScript .Visualize the sort algo like bubble sort, selection sort, Insertion sort, merge sort, quick sort, heap sort how it works internally.

Chat-app (Mern stack Project)

Technology Used: HTML, CSS, JavaScript, mongodb , socket.io, react, express, axios , jwt.

A responsive chat app with jwt authentication using mongodb as database. For the frontend react.js is used also one to one chat and group chat option available .real time chat using socket.io.For the backend node.js and express.js is used. In this project i have created database and connect it with backend.
